Max and Anita-

I agree with you, but unfortunately the Bitterroot Valley has finally been discovered by the financial elite of the world. I campaigned heavily and succeeded in electing commissioners I AND MANY OTHERS believed would slow down the rampant urban sprawl, only to be lied to by these DEMOCRAT back stabbers. I NEVER in my entire life voted for a damned Democrat and now I see why. They are ALL a bunch of Jackals just like the radical Obama and the snake Hillary. Accordingly, instead of ranches, small town hospitality and big sky freedom, this place is turning into another DARK HOLE, just like NJ and LA. The rich investment tycoons ARE getting their way! Our western freedoms are **CLEARLY** doomed...

(Just so you understand the potential damage these back stabbing DEMOCRAT commissioners are perpetrating, the present proposed zoning includes, no roosters on less than 5 acres, no sale of guns from any residence, 75' set back from all streams along the **FULL** length of your property line – not just where your house is, 75' public access zone along all streams where land owners must maintain a certain flora and fauna for public use on **BOTH** sides of the stream! – but can not sell the property for any use but stream setback, no horses on less than 3 acres, etc. etc.. The zoning group from Colorado hired by our DEMOCRAT Ravalli County commissioners who are setting the zoning standards similar to several BIG CITIES have put ALL these items in their first Ravalli County zoning draft, knowing very well it will not INITIALLY pass public scrutiny. It is expected and planned by them that they will water down the first draft to almost nothing and then, once their nose is in the barn, just chip away at the individual pieces year after year until all the items are eventually in the Code. It is just like boiling a frog. If you start with cold water, he will allow himself to be cooked alive. I see the writing on the wall! It's time to WORK HARD to kick these back stabbing DEMOCRATS out of office)

As soon as possible I'm out of here ... I am thankful to have had the opportunity to live in a place that **USED TO BE** "the last best place". However, when I have to wait 10 minutes just to get out onto a highway near my home, it's time to move on anyway. Only 4 short years ago it was NOT that way. More and more we are trapped! The new east coast/west coast politics of this valley SUCKS! The politicians that moved here from places like Brooklyn and San Francisco are ALL about making our Valley into another CITY. What we USED to HAVE is all but gone... My next move will be to Alaska or even Greenland. Just as I couldn't wait to get here, now I can't wait to leave. Sorry to be so cynical but I am a farmer/rancher at heart. My love for freedom, small-town mentality, ranch life and personal integrity trumps all other considerations. DEMOCRATS LIVE to control others. If you want a socialist society, just vote them in and you WILL get it. If I wanted to live in a friggin' city, I'd have stayed right there in NJ. I give you both a lot of credit and applaud your stand. However, in the end, the DEMOCRAT politicians here don't give a rats ass how you feel. They are going to get what they want! As from the beginning of time, MONEY TALKS!! This will NEVER be about the common folk and our needs. It is ALL about BIG money.

SHIT-CAN THE PRESENT DEMOCRAT COMMISSIONERS BEFORE YOU END UP LIKE THEM – WARPED AND POWER HUNGRY.  
DRISCOL AND HER CRONIES MUST GO!!!

Movin' on....  
 Montana Bob

**Subject:** Fw: Variance on subdivisions

Below is a letter Max and I sent to the commissioners. On May 27, the commissioners will decide on a variance from subdivision requirements ( Cost approx. \$300,000 to tax payers if County pays for the paving of 3.9 miles of county road to the proposed subdivision - Florence Eight Mile Road). Please, send a note to your commissioners if you think the commissioners should adhere to the subdivision requirements in place. Their planning board has recommended rejection of this variance based on the county's inability to meet health and safety requirements.

email: [commissioners@ravallicounty.mt.gov](mailto:commissioners@ravallicounty.mt.gov)

thanks for listening,

Anita/Max Drewien

**Subject:** Variance on subdivisions

Commissioners,

Giving variances to large developments only makes the taxpayers pay for those developments. Enough is enough. Developers should pay for their projects, and the price of the homes in that area will reflect their expenditures I am sure!

Please do not support a developer's request for variance when the bill for upgrades to that area will fall back on the taxpayer's of the county.

Why do you have a planning board if you do not accept their recommendation's?

One of the problems, as I see it, is many people do not accept the view points of those who are paid or gathered in committees to evaluate a given problem. Then why have them if you don't trust their judgment?

Denial of a variance based on the County's inequality to meet health and safety requirements; e.g. roads, police, fire, ambulance should be adhered to.

Sincerely,

Max and Anita Drewien
